Engagement and wedding rings are traditionally worn on the ring finger on the left hand in the United States.

2. Place the ring over the circles below, matching the inside edge of the ring to the circle nearest in size. This measurement refers to the **inside diameter** of the ring.

3. If the ring falls between two sizes, order the larger size.

TIPS FOR MEASURING RING SIZE

MEASURING YOUR FINGER

Your ring should fit your finger comfortably; snug enough so that it will not fall off, but loose enough to slide over your knuckle.

Finger size changes depending on the time of day and the weather. For best results measure your finger size:

1. At the end of the day and when your fingers are warm (Fingers are smaller in the early morning and when cold.)
2. Measure finger size 3 to 4 times to eliminate an erroneous reading.

Avoid using string or paper to measure ring size as these materials can stretch or twist, yielding an inaccurate measurement.

TIPS FOR BUYING THE RING AS A SURPRISE

Ask your significant other's friends or mother if they know her finger size.

Borrow one of your significant other's rings (from the correct finger) and use the ring measurements above to determine its size.

FREE RESIZING

Lovewedingsbands provides free resizings on all if the desired difference is no greater than one ring size, half a size for rings that has diamonds. For eternity bands we may need to craft a new ring for the new size, the cost depends on the model.

INTERNATIONAL SIZE CONVERSION
